

<p style="text-align: center;">WORKSHOP “Darkroom developing”</p>

If you still like old school and you did not throw away your analogue 35mm camera this is a workshop for you.

Timing and place:

Weekly sessions (2hours 30min or longer)

What to bring:

- analogues 35mm film roles or 35mm black & white negatives
- Pen to take notes (I provide a notebook)

Program:

Learn how to make the chemicals used in the darkroom.

Learn how to develop 35mm film roles.

Learn how to develop your black and white pictures starting from negatives in the darkroom.

Learn how to manipulate your negatives during the dark room process.

Learn how to develop your pictures using paintbrushes.

Process your black & white photographs into sepia tones.

When you are acquainted with the darkroom, you can come back to use the facilities of my darkroom to print your pictures.
